MARGARITA

GLACIER GLASS

Model: FTC600 • UPC: 8 86245 00951 6

Give your favourite margaritas some extra chill with the Margarita Glacier Glass. Simply add water, insert the mould & freeze to create a margarita glass lined with ice.

- Keep margaritas icy cold longer
- Simple to use just add water, insert the mould & freeze
- Freeze with flavoured liquids like juice for creative flavour infusions
- Mould is made from BPA-free & certified food grade silicone
- Margarita glass 12 oz. (355 mL)

Fill the inside of the mould with water to the indication line.

Pour pre-measured water from the mould into the glass.

Insert the mould into the glass.

Place the filled glass and mould upright into the freezer.

Once frozen, remove the silicone mould & fill frozen glass with beverage of choice.
